

Crestwood, Kentucky / December 10, 2022/ Two years after successful launch of its unique 100% Rye finished in Bordeaux wine barrels, Coalition Whiskey is excited to announce the release of Kentucky Bourbon range

New to the World, **Coalition Bourbon Cask Strength** and **Coalition Bourbon Single Barrel**, both engaging entries are blends of up to 10 year old bourbons from Kentucky Artisan Distillery's own cellar as well as several other highly respected Kentucky distilleries. These prized components were skillfully brought together, left to properly merge and are now being released to select customers.

Both products express very distinctive character and style. A non-chill filtration allows true flavors of these Kentucky bourbons to truly stand out. All hand bottled.

These newest additions to Coalition Whiskey portfolio is a result of the progressive vision of Leonid Yangarber and admirable virtuosity of Jade Peterson, the Master Distiller at Kentucky Artisan Distillery. They have different backgrounds but share a common denominator of love for bourbon. With a combined 30 years of experience in the business, this Coalition is a force to reckon with in the industry and uses its collective skills to reimagine and elevate premium bourbon.

"Jade and I worked on this line of Bourbon for long time and we are very pleased with the outcome. Can't wait to share with our customers and demanding Bourbon fans!" — said Leonid Yangarber, the founder and CEO of Coalition Whiskey.

Coalition Bourbon comes packaged in impressive Art Deco-inspired ridged glass bottle echoing the cut crystal decanters made famous during the 1920s – the whiskey's heyday.

Coalition Bourbon Single Barrel, Proof from 92 to 96. Welcoming initial splash of tart caramel apple, immediately followed by hints of clean honey, fresh baked bread pudding, raisin, and vanilla. The finish is generous and evolving with a lingering tease of fresh fruit and mint.

Coalition Bourbon Cask Strength, Proof 114. Rich and rewarding from the first sip. Tangy, as smooth as butter, tart and floral. The finish is mildly sweet with a prolonged cool, woody aroma.

"Small changes and attention to each step layers the complexity and ability of the bourbon to shine. In the end that's what it's about. Let Coalition Bourbon do the talking and we get to enjoy what it has to say." – said Jade.

First production release is 5,000 hand-numbered bottles. Suggested retails: Coalition Bourbon Single Barrel - \$74.99. Coalition Bourbon Cask Strength - \$89.99. Initial distribution will take place in Texas, Florida, Kentucky and California as well as online at www.coalitionwhiskey.com
